

Project Title

Conducting Members

Executive Summary:

1. Project Objective
2. Project Methodology
 - 2.1 Data Collection Procedure
 - 2.2. Data Validation Procedure
 - 2.2 Data Preprocessing and Normalization
 - 2.4 Feature Extraction Procedure
 - 2.5 Classification Algorithms
 - 2.6 Data Analysis Techniques
 - 2.7 Block Diagram and Workflow Diagram of Proposed Model
 - 2.8 Experimental Setup and Implementations
3. Results and Discussion
 - 3.1 Results Comparison
 - 3.2 Confusion Matrix Analysis
 - 3.3 Graphical Representation of Results
4. Conclusion and Future Recommendations

Appendixes:

All codes by module and its purpose
